

COMPUTER SCIENCE (CSC)

2026-2027 DEGREE MAP

SEMESTER 1 CSC 101 Principles in Information Technology and Computation¹ 3 CREDITS ENG 101 English Composition 3 CREDITS MAT 206 Precalculus^{1,2} 4 CREDITS XXX xxx Individual and Society³ 3 CREDITS	Create your Handshake Account and complete your profile. Begin exploring internships, jobs, and career paths that match your interests. Schedule an appointment with a career advisor at the Center for Career Development. Join a Student Club: Get involved on campus to start building your network and developing core skills. Activate your BMCC Co-Curricular Transcript (CCT) to document your participation in activities and programs each semester. Joining a club, like the Computer Programming club, and participating in a program will help you build your resume. Draft a Basic Resume: Start documenting your academic achievements, extracurriculars, and any work, internship, or volunteer experiences. Upload your resume to your Handshake profile. Research Baccalaureate Programs and Complete a Transfer Plan: Begin researching colleges and transfer requirements. Additional Department Specific Milestones • Attend CIS student orientations: Gain essential insights into department resources, curriculum planning, and networking opportunities with faculty and peers. • Explore Career resources: Gain personalized guidance, secure internships, and access job opportunities that align with your skills and goals (e.g., Career Coach, Office of Internship and Experiential Learning).
SEMESTER 2 CSC 111 Introduction to Programming¹ 4 CREDITS ENG 201 Introduction to Literature 3 CREDITS MAT 301 Calculus I⁴ 4 CREDITS SPE 100 Fundamentals of Public Speaking⁵ 3 CREDITS XXX xxx U.S. Experience in its Diversity³ 3 CREDITS	Create a LinkedIn Account: Establish a professional online presence. Contact the Center for Career Development for support. Attend Professional Development Events and Workshops: Build your skills by attending professional development career events and workshops, Career Days, and job and internship fairs. Draft a Basic Cover Letter: Practice writing a cover letter that you can use to apply to internships and fellowships. Review job postings and Career Coach to identify the skills employers want, and highlight them in your cover letter. Upload your cover letter to your Handshake profile. Attend Transfer Events: Receive assistance with the transfer process, admissions requirements, transfer credit evaluation, and more. Additional Department Specific Milestones • Create a GitHub Account: Build a public portfolio of projects, collaborate on code, and demonstrate skills to potential employers. • Attend hackathons or coding competitions: Gain hands-on problem-solving experience, network with peers and industry professionals. • Explore career pathways in computer science: Research available pathways, such as software engineering, AI, etc. and discuss your findings with your career advisor. Align your skill set with industry demands. • Apply to the CUNY Career Launch Program: Gain hands-on experience, professional networks, and resume-building achievements tailored for those without prior paid internships. • Explore online certification or microcredentials you can complete, like Google IT Support Certificate, an AWS Cloud Practitioner badge or Microsoft Azure Fundamentals.

COMPUTER SCIENCE (CSC)

2026-2027 DEGREE MAP

SEMESTER 3 18 CREDITS CSC 211 Advanced Programming Techniques⁶ 3 CREDITS CSC 231 Discrete Structures and Applications to Computer Science⁷ 4 CREDITS MAT 302 Calculus II⁸ 4 CREDITS PHY 215 University Physics I⁹ 4 CREDITS XXX xxx Program Electives¹⁰ 3 CREDITS	Find a Mentor to Check in With Periodically: Establish a relationship with someone who can provide guidance and advice related to your career goals. Start Your Internship Search: Begin looking for and applying for CUNY-wide, college-specific, and external internship opportunities relevant to your major. Research and Apply to Baccalaureate Programs: Apply to colleges that offer a BA/BS degree in your field. Recommended milestones: Join a Professional Organization or Pursue Leadership Roles: Deepen your engagement in your field of study by joining a professional organization (e.g., ACM, IEEE, Computer Professionals for Social Responsibility, The Honor Society). Develop a Network with LinkedIn: Actively connect with professionals and alumni in your field. Update Your Resume: Incorporate any new experiences or skills acquired since your last update. Update your professional online presence and demonstrate your technical skills to potential employers. Identify Skills You Need to Build Outside the Classroom: Use job descriptions and insights from professionals to identify in-demand skills in your career field. Then, explore tools and resources to develop those skills (e.g. Coursera, CUNY Upskilling, LinkedIn Learning). Additional Department Specific Milestones • Post coding projects to GitHub (e.g., homework or course projects): Start a public portfolio, demonstrate consistent progress and gain visibility. • Create a LeetCode account: Start to practice LeetCode problems to master data structures, algorithms, and problem-solving patterns essential for technical interviews and future work. • Attend internship preparation workshops to build essential resume, interview, and technical skills for internships opportunities.
SEMESTER 4 15 CREDITS CSC 215 Fundamentals of Computer Systems⁶ 3 CREDITS CSC 331 Data Structures¹¹ 3 CREDITS CSC 350 Software Development¹² 3 CREDITS XXX xxx Program Electives¹⁰ 3 CREDITS XXX xxx World Cultures and Global Issues³ 3 CREDITS	Complete Graduation Survey in CUNYfirst Checklist Accept Your Offer to Enroll in a Baccalaureate Program: Accept your offer through CUNYfirst, if applicable, and complete any required supplemental materials. Recommended milestones: Attend Networking Events and Career Fairs: Attend networking events and career fairs to meet employers, build connections, and learn about opportunities. Final Interview Preparation: Schedule interview practice sessions with the Center for Career Development or use the resources on Handshake to refine your interview skills. Additional Department Specific Milestones • Create a personal project (web or mobile app) and post it on Github: Keep expanding your portfolio and demonstrate consistent progress to potential employers, and gain visibility. A public profile with at least one finished repository that has a clear README, real documentation and a working demo will go a long way with letting employers know your work. • Participate in virtual or in-person hackathons and code competitions: Grow your hands-on problem-solving skills, network with peers and industry professionals.
TOTAL: 63 CREDITS¹³	
Footnotes ¹ CSC 101 and MAT 206 are prerequisite courses to CSC 111. Students are strongly encouraged to take both courses in their first semester. ² Please speak to your faculty/academic advisor about your appropriate math pathway. ³ Please consult with an academic or faculty advisor. ⁴ MAT 206 must be passed in order to take MAT 301. ⁵ SPE 102 is an option for non-native speakers of English. ⁶ CSC 111 must be passed in order to take CSC 211 and CSC 215.	⁷ CSC 111 and MAT 301 must be passed in order to take CSC 231. ⁸ MAT 301 must be passed in order to take MAT 302. ⁹ PHY 215 has a co-requisite course of MAT 302. ¹⁰ A total of 6 credits are needed. Choose 2 from CIS 317, CIS 345, CIS 359, CIS 362, CIS 364, CIS 385, CIS 395, CSC 103, GIS 201, CIS 316, CIS 272, CIS 285, CSC 203, or CIS 375. ¹¹ CSC 211 and CSC 231 must be passed in order to take CSC 331. ¹² CSC 211 must be passed in order to take CSC 350. ¹³ A Writing Intensive course is needed to graduate.
